# CONTENTS

<b>1.</b>	<b>GEOPOLITICS AT GLANCE</b>	<b>5</b>
1.1	Deep Dive into the China-Taiwan Strait	5
	• Introduction	5
	• Historical Flashpoints	5
	• Examples of Escalating Tensions	5
	• Economic Interdependence	5
	• Recent Developments and Unclear Future	5
	• Challenges and Future Scenarios	6
	• Conclusion	6
1.2	UN Reforms and Multilateralism	6
	• Introduction	6
	• Why Reform?	7
	• What needs to be Reformed?	7
	• Demands from all Sides	7
	• Challenges and Opportunities	7
	• Examples and Facts	8
	• Why Reform Matters to India	8
	• Conclusion	8
1.3	The Rise of the “Global South”	8
	• Introduction	8
	• BRICS Expansion: Building a Stronger Bloc?	9
	• South-South Cooperation	9
	• Divergent Interests: Seeking a Common Ground	10
	• India’s Balancing Act: A Tightrope Walk	10
	• Addressing Global Challenges	10
1.4	The Food Crisis and Geopolitical Shifts	11
	• Introduction	11
	• Unprecedented Hunger: A Stark Reality Bites	11
	• War’s Bitter Harvest: Disrupting the Breadbasket of the World	11
	• Food as a Weapon	12
	• India’s Balancing Act	12
	• Alternative Solutions for a Sustainable Future	12
	• Key Institutional Interventions	12
	• Conclusion	13
1.5	Emerging Technologies and their Geopolitical Impact	13
	• Artificial Intelligence (AI) and its Security Implications	13
	• Market Overview of AI (2024)	13
	• AI in Geopolitics and Security	13
	• Disinformation and Propaganda Campaigns Online	13
	• Ethical Considerations of Emerging Technologies	14
	• Data and Geopolitics	14
	• Conclusion	14
1.6	Global Power Dynamics and Shifting Alliances	14
	• Introduction	15
	• Rise of China and the US-Led Order	15
	• BRICS and the Potential for Multipolarity	15

• Regional Security Alliances and Shifting Dynamics	15
• Impact on India: A Balancing Act	15
• Emerg1ing Trends and Uncertainties	15
• Conclusion	15
<b>1.7 The Future of Democracy in a Fragile World</b>	<b>16</b>
• Introduction	16
• The Rise of Populism and Authoritarianism	16
• Role of Disinformation and Fake News	17
• Political Polarization and Social Fragmentation	17
• How to Strengthen Democratic Resilience in this world	17
• India’s Role in Strengthening Democracy	17
<b>1.8 The Refugee Crisis and Global Migration</b>	<b>18</b>
• Introduction	18
• How Ongoing Wars and Humanitarian Crises cause displacement	18
• Climate Change and Environmental Displacement	18
• Other Drivers of Displacement	18
• Other Drivers of Displacement	18
• Issues in Seeking Refuge	18
• Global Responsibility Sharing and Refugee Protection Frameworks	19
• What are the possible Solutions and New Pathways	19
• India’s Unique Role in the Refugee Crisis	19

## **2. INDIAN GOVERNMENT AND POLITICS (IGP) 20**

<b>2.1 Sub Categorisation of OBC Castes</b>	<b>20</b>
• Introduction	20
• Rationale for Subcategorisation	20
• Challenges and Debates	20
• Supreme Court Judgments	20
• Examples and Case Studies	21
• Committees Formed	21
• Way Forward	21
• Conclusion	21
<b>2.2 Reservation for Transgender Community</b>	<b>21</b>
• What have the courts said on reservation for the transgender community?	22
• What is horizontal reservation?	22
• What is the demand for horizontal reservation?	23
• What has happened so far on horizontal reservations?	23
<b>2.3 The Future of India’s Secularism</b>	<b>24</b>
• Understanding the Historical and Constitutional Framework of Secularism in India:	25
• Challenges and Interpretations	25
• Redefining Secularism in Contemporary India	25
• Civil Society and Institutions: Guardians of India’s Secular Values	26
<b>2.4 Freebies in India</b>	<b>27</b>
• Definition and Types of Freebies	27
• Common Types of Freebies	27
<b>2.5 Caste Reservations in Higher Education</b>	<b>29</b>
• Introduction	29
• What is the Rationale behind such a system	29
• What are the Arguments in favour of reservation	30

• What are the Arguments against reservation	30
• What reports and committees have to say	30
• Conclusion	30
2.6 Religious Freedom and Minorities in India	30
• Introduction	31
• What are the challenges of Intolerance	31
• Need to Balance Competing Rights	31
• Need to Build Bridges Across Faiths for Inclusivity	31
• The Recent Policy Measures and Legal Landscape	31
2.7 Social Justice and Inclusion in India	32
• Introduction	32
• Affirmative Action Policies	32
• Challenges for SC/ST/OBCs	33
• Tackling Caste and Gender Discrimination	33
• Conclusion	33
2.8 Judiciary and Judicial Activism	33
• Introduction	34
• Definition and Scope of Judicial Activism	34
• Landmark Judgments and Policy Impact	34
• Types of Judicial Activism	35
• Arguments for and against Judicial Activism	35
• Global Perspectives and Comparisons	35
• Conclusion	35

### 3. MAINS PRACTICE QUESTIONS 36

### 4. SCHOLARS DIGEST: KNOW YOUR SCHOLARS 40

4.1 Jean-François Lyotard and his Main Ideas: A Critical Perspective	40
• Introduction	40
• Incredulity Towards Metanarratives	40
• Critique of Grand Narratives	40
• Language and Knowledge	40
• The Postmodern Condition	41
• Implications and Criticisms	41
• Conclusion	41
4.2 Thomas Hobbes	41
• State of nature	42
• Social contract	42
• Absolute sovereignty	42
• Conclusion	42
4.3 Samuel P. Huntington	43
• Introduction	43
• Clash Of Civilization Thesis	43
4.4 Andre Gunder Frank	44
• Introduction	44
• dependency Theory	44

### 5. ENRICH YOUR ANSWERS 45

### 6. PRELIMS PRACTICE QUESTIONS 48

# GEOPOLITICS AT GLANCE

## DEEP DIVE INTO THE CHINA-TAIWAN STRAIT

### RELEVANCE

#### Syllabus:

- ❑ **PSIR:** India and the Global Centres of Power: China
- ❑ **GS2:** India and its Neighborhood- Relations

### INTRODUCTION

The China-Taiwan issue remains a hotbed of tension, not just regionally but also on the global stage.

### HISTORICAL FLASHPOINTS

**Civil War Echoes:** The 1949 Chinese Civil War saw the Communist Party (CCP) defeat the Kuomintang (KMT), who retreated to Taiwan, establishing the Republic of China (ROC). This unresolved conflict forms the historical basis of the dispute.

**The “One-China” Policy:** China claims Taiwan as an inseparable part of its territory, adhering to the “One-China” policy. Taiwan, however, views itself as a sovereign nation, the ROC. This fundamental difference fuels constant friction.

### EXAMPLES OF ESCALATING TENSIONS

**Military Maneuvers:** China has significantly increased its military presence near Taiwan, conducting frequent air incursions and military exercises. In 2022, China’s record-breaking

military drills around Taiwan during Nancy Pelosi’s visit sparked major concerns.

**Diplomatic Standoffs:** China often exerts diplomatic pressure on countries maintaining ties with Taiwan, limiting Taiwan’s international space and hindering its participation in international organizations.

### ECONOMIC INTERDEPENDENCE

**Trade Powerhouse:** Taiwan is a technological and economic powerhouse, with its semiconductor industry playing a vital role in global supply chains. Despite the political tensions, China and Taiwan are major trading partners, creating complex economic interdependence.

**Decoupling Concerns:** Trade frictions and geopolitical tensions raise concerns about potential decoupling, where economies and supply chains could be restructured to exclude China and Taiwan. This could have significant global economic ramifications.

### RECENT DEVELOPMENTS AND UNCLEAR FUTURE

**Xi’s Increasing Assertiveness:** China’s leader, Xi Jinping, has adopted a more assertive approach towards Taiwan. Military exercises simulating “blockades” of the island, increased air incursions, and diplomatic isolation tactics reflect a growing pressure campaign aimed at reunification. This raises concerns about the potential for miscalculation and escalation.

**Taiwan's International Connections:** Despite China's pressure, Taiwan has strengthened ties with other democratic nations. Visits by high-ranking officials from the US and other countries, participation in international organizations like the Global Cooperation and Training Framework, and efforts to diversify trade partnerships showcase Taiwan's growing international presence.

**The Role of Technology and Disinformation:** Cyberattacks and disinformation campaigns targeting both China and Taiwan can exacerbate tensions and manipulate public opinion. Understanding the role of technology in information warfare is crucial for mitigating these risks and promoting responsible communication.

**Domestic Politics:** Rising nationalism in China strengthens public support for unification, even through force. Meanwhile, a growing Taiwanese identity fuels calls for formal independence.

### CHALLENGES AND FUTURE SCENARIOS

**Maintaining the Status Quo:** The current uneasy "status quo" remains precarious, characterized by constant simmering tensions and the risk of accidental escalation. Finding a stable long-term

solution that respects both sides' interests remains a significant challenge.

**Peaceful Resolution and Cross-Strait Dialogue:** Engaging in meaningful dialogue and exploring confidence-building measures, while challenging, offer the most desirable path towards peaceful resolution. However, finding common ground on sensitive issues like national identity and security arrangements will require significant compromise and political will from both sides.

**Military Conflict and Regional Fallout:** Although a worst-case scenario, military conflict in the Taiwan Strait would have devastating consequences for all involved. Regional stability, global supply chains, and countless lives would be at stake. The international community has a strong interest in preventing such a scenario through diplomatic efforts and crisis management strategies.

### CONCLUSION

The China-Taiwan issue remains one of the most complex and potentially volatile international disputes today. As the situation evolves, continued critical analysis, informed dialogue, and international cooperation are essential to prevent escalation and safeguard regional stability.

## UN REFORMS AND MULTILATERALISM

### RELEVANCE

#### Syllabus:

- GS2: Bilateral, Regional and Global Groupings and Agreements involving India and/or affecting India's interests
- PSIR: India and the UN System

### INTRODUCTION

The United Nations, envisioned as a beacon of collective action in a tumultuous world, faces the urgent need for reform. While multilateralism, the pursuit of common goals through cooperation,

remains essential, its effectiveness hinges on a revitalized UN.

### WHY REFORM?

**Outdated Structure:** The UN's post-WWII structure no longer reflects the global power dynamics. The Security Council's permanent veto-wielding members often impede decisive action on critical issues.

**Lack of Accountability and Transparency:** Concerns around bureaucratic inefficiencies, budgetary misallocation, and lack of transparency in decision-making processes erode public trust in the UN.

**Emerging Global Challenges:** Climate change, pandemics, cyber threats, and migration crises demand agile and coordinated responses, which the UN, in its current state, struggles to provide.

### WHAT NEEDS TO BE REFORMED?

**Security Council Reform:** Expanding the permanent membership and revising veto powers to better reflect contemporary realities is crucial. Proposals like the G4 initiative advocate for increased African and Latin American representation.

**Enhanced Efficiency and Transparency:** Streamlining bureaucracy, strengthening internal oversight mechanisms, and increasing budgetary transparency can restore stakeholder confidence.

**Focus on Emerging Issues:** Establishing dedicated mechanisms to address new threats like climate change and cyber insecurity, while strengthening humanitarian response capabilities, is vital.

### DEMANDS FROM ALL SIDES

**Member States:** Developing countries demand greater representation and participation in decision-making. Civil society organizations advocate for increased focus on human rights and environmental protection.

**Private Sector:** Business leaders call for streamlined regulations and enhanced collaboration on economic and technological issues.

### CHALLENGES AND OPPORTUNITIES

**National Interests vs. Global Good:** Balancing national interests with the global good remains a challenge. Building trust and fostering a win-win mentality amidst competing goals is key.

**Political Will and Resources:** Reforms require political will from member states and adequate financial resources. Overcoming apathy and securing funding are crucial hurdles.

**Emerging Powers and Shifting Alliances:** Navigating the evolving landscape of global power dynamics and building consensus among

diverse actors presents both a challenge and an opportunity.

### EXAMPLES AND FACTS

In 2020, over 100 countries supported the “Declaration for Multilateralism,” highlighting the need for UN reform.

The UN’s 2030 Agenda for Sustainable Development, adopted in 2015, offers a framework for coordinated global action, despite implementation challenges.

The Paris Agreement on climate change exemplifies successful multilateral cooperation, showcasing the UN’s potential in tackling global challenges.

### WHY REFORM MATTERS TO INDIA

**Security Council Reform:** India actively participates in negotiations and initiatives, such as the G4 proposal, which advocates for permanent seats for Brazil, Germany, India, and Japan.

**Seeking a Greater Voice:** India, the world’s second-largest populous nation, seeks a permanent seat on the Security Council, reflecting its growing economic and strategic weight. The current structure is seen as outdated and undemocratic, hindering India’s ability to contribute effectively to global decision-making.

**Championing Developing Countries:** India advocates for fairer representation for developing countries in various UN organs, including the Security Council and Human Rights Council. This aligns with its long-standing commitment to South-South cooperation and promoting the interests of the Global South.

**Ensuring Relevance in Emerging Issues:** India stresses the need for the UN to adapt to new challenges like climate change, terrorism, and cyber security. It calls for stronger mechanisms to address these issues and demands a greater role in shaping the global response.

### CONCLUSION

Reforming the UN is not simply an option, but a necessity to ensure its continued relevance in a rapidly changing world. By addressing the need for a more equitable, efficient, and responsive UN, we can strengthen multilateralism and weave a future of cooperation to tackle the shared challenges humanity faces. The path ahead requires political will, innovative solutions, and a collective commitment to a revitalized UN that embodies the ideals of a peaceful and prosperous future for all.

## THE RISE OF THE “GLOBAL SOUTH”

### RELEVANCE

#### Syllabus:

- PSIR:** India and the Global South
- GS2:** Bilateral, Regional and Global Groupings and Agreements involving India and/or affecting India’s interests.

### INTRODUCTION

The term “Global South” isn’t just geography; it’s a burgeoning **identity**, a constellation of developing nations rising in unison. At its heart lies a desire for greater autonomy, economic prosperity, and a

voice on the world stage. And as this voice gets louder, a fascinating dynamic unfolds: a delicate dance between unity and divergent interests, a quest for collective strength while navigating internal complexities.

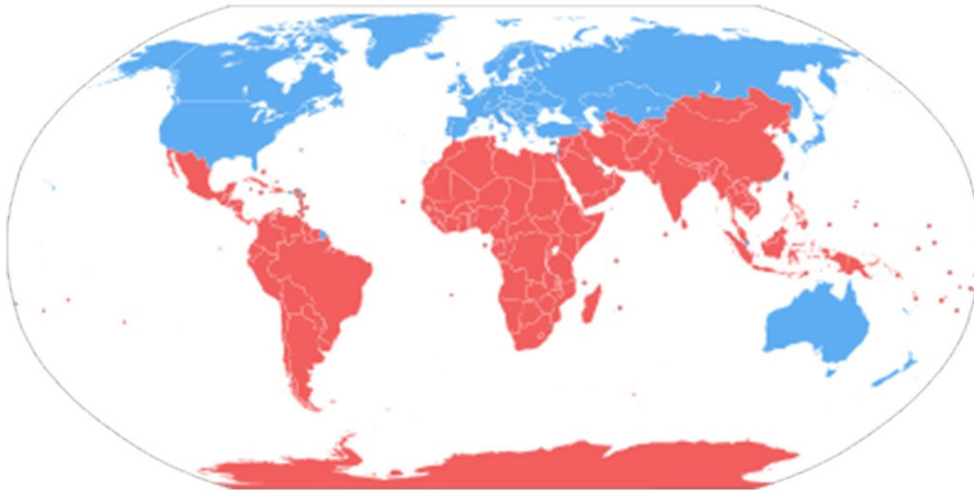

# GLOBAL SOUTH

## ABOUT GLOBAL SOUTH

- Global North/South is the most accurate grouping of countries together, measuring similarly in terms of wealth, indicators of education and healthcare, etc.
- 'Global North' loosely refers to countries like the US, Canada, Europe, Russia, Australia and New Zealand, while 'Global South' includes countries in Asia, Africa and South America.

Visit [studyyiq.com](https://studyyiq.com) or Download The APP

## BRICS EXPANSION: BUILDING A STRONGER BLOC?

The current BRICS grouping (Brazil, Russia, India, China, and South Africa) boasts a combined GDP of over \$23 trillion and 40% of the world's population. The potential addition of Argentina and Indonesia could further boost these figures, potentially placing BRICS+ among the world's largest economic blocs. (Source: World Bank, International Monetary Fund)

The G20, another grouping with emerging economies, demonstrated increased influence in global financial policy discussions. A strengthened BRICS+ could similarly push for reforms benefiting developing nations in areas like trade and development aid.

Divergent political systems, varying economic priorities, and historical tensions within the group itself are potential hurdles to achieving effective collective action.

## SOUTH-SOUTH COOPERATION

**Data:** South-South trade has doubled since 2000, reaching over \$5 trillion in 2021. Countries like India and China are increasingly investing in infrastructure projects in Africa and Latin America. (Source: UNCTAD, World Trade Organization)

The South-South Development Cooperation Fund, established by China, provides concessional loans and grants to support development projects in various developing countries.

**Benefits:** Sharing technical expertise, knowledge, and resources within the Global South can foster economic growth, technological advancement, and South-South solidarity. However, the potential for dependence on larger economies and unequal partnerships raise concerns.

### DIVERGENT INTERESTS: SEEKING A COMMON GROUND

**Economic Reliance:** Many Global South nations have strong trade ties with Western economies, creating a complex balancing act. While seeking greater autonomy, economic dependence requires maintaining these relationships.

India's strategic partnership with the US, while crucial for security concerns, might not always align with its economic interests in areas like trade with Iran.

**Navigating the Divide:** Striking a balance between pursuing common goals for the Global South and respecting individual national interests is paramount.

### INDIA'S BALANCING ACT: A TIGHTROPE WALK

India is a key player in the Global South, boasting the world's fifth-largest economy and significant influence in regional initiatives like IORA and BIMSTEC.

**Professor C. Raja Mohan**, in his book "India and the United States: Strategic Convergence and Divergence," highlights India's unique position as a bridge between the Global North and South, enabling it to play a crucial role in fostering dialogue and promoting South-South cooperation.

**Example:** India's leadership in initiatives like the International Solar Alliance demonstrates its commitment to leveraging its strengths and resources to address global challenges and empower developing nations.

**Foreign Minister's Statement:** Indian Foreign Minister S. Jaishankar has emphasized India's commitment to "South-South cooperation"

**Challenges:** India faces the task of balancing its historical partnerships with Western powers like the US and the UK with its growing engagement with the Global South and its own aspirations for strategic autonomy.

**Opportunities:** India's unique position as a bridge between the Global North and South allows it to play a crucial role in fostering dialogue, promoting South-South cooperation, and advocating for the interests of developing nations on the world stage.

### ADDRESSING GLOBAL CHALLENGES

Developing countries are disproportionately affected by climate change. Collective action within the Global South, advocating for stronger emission reduction commitments and equitable access to green technologies, can be a powerful force for change.

**Pandemics:** The COVID-19 pandemic exposed the vulnerabilities of developing nations in healthcare systems and access to vaccines. Sharing resources, expertise, and research within the Global South can strengthen collective preparedness for future health crises.

**Poverty Eradication:** Reducing poverty and inequality demands global cooperation. The Global South can leverage its collective weight to push for fairer trade practices, debt relief initiatives, and increased development assistance focused on empowering the most vulnerable communities.

### Conclusion

The rise of the "Global South" is a story of potential and challenges, a complex tapestry woven with threads of unity and divergence. As this constellation of nations navigates its internal complexities and strives for a stronger voice on the world stage, their decisions will resonate globally, shaping the future of international relations, economic development, and the fight against pressing global challenges.

# THE FOOD CRISIS AND GEOPOLITICAL SHIFTS

## RELEVANCE

Syllabus:

- ❑ GS2: Effect of Policies and Politics of Developed and Developing Countries on India's interests
- ❑ PSIR: India's position on the recent crises

### INTRODUCTION

The spectre of a global food crisis casts a long shadow across the world, its tendrils reaching from drought-stricken fields to the corridors of power. This complex web of hunger, war, and resource scarcity demands an in-depth examination, dissecting its intricate parts to understand the challenges and potential solutions.

### UNPRECEDENTED HUNGER: A STARK REALITY BITES

The World Food Programme's grim forecast paints a stark picture: 828 million people, a figure larger than the combined populations of the United States and Mexico, faced hunger in 2021. (Source: World Food Programme, Global Report on Food Crises 2023)

## GLOBAL REPORT ON THE FOOD CRISES (GRFC) 2023

A climate-induced drought engulfs the region, pushing Somalia towards its worst famine in five decades. Malnourished children, their skeletal figures stark against the parched landscape, personify the human cost of this crisis.

**Domino Effect:** Food insecurity doesn't exist in a vacuum. It fuels social unrest, economic collapse, and mass migration, destabilizing fragile states and creating breeding grounds for conflict. The Syrian Civil War, partly triggered by a drought-induced food crisis, serves as a grim reminder of these ripple effects.

### WAR'S BITTER HARVEST: DISRUPTING THE BREADBASKET OF THE WORLD

Ukraine and Russia, the world's breadbaskets, are locked in a deadly conflict. Their combined wheat exports account for nearly 30% of the global trade, creating a gaping hole in the supply chain. (Source: International Grains Council, "Grain Market Report" September 2023)

**Fertilizer Famine:** Russia, a major fertilizer producer, is reeling from sanctions and logistical disruptions. The resulting price hikes and potential

shortages further cripple agricultural production around the world.

The war's impact has triggered a domino effect, sending global food prices soaring by over 30% in two years. Low-income countries, heavily reliant on wheat imports, face the brunt of this surge, with families forced to choose between meals and other basic necessities.

### FOOD AS A WEAPON

**Weaponization of Food:** History whispers cautionary tales. Concerns are mounting about countries strategically withholding food aid and manipulating agricultural markets as tools for political and economic dominance.

**Cold War Echoes:** During the Cold War, the US utilized food exports as a geopolitical tool to influence political outcomes in developing nations, demonstrating the chilling potential of food as a weapon.

**Trust Deficit:** Weaponizing food erodes trust and cooperation in the international community, exacerbating food insecurity and sowing the seeds of conflict. Imagine a future where access to basic sustenance becomes a bargaining chip in political disputes.

### INDIA'S BALANCING ACT

**India's Dilemma:** India, a major food producer and exporter, stands at a crossroads. Its rice and wheat exports feed millions worldwide, yet domestic needs must be carefully considered.

**The Challenge:** Striking a balance between ensuring food security for its massive population and leveraging its agricultural prowess to alleviate global hunger requires careful calculations and strategic planning.

**Leading by Example:** India's potential goes beyond mere exporting. It can champion food security initiatives, promote sustainable farming practices,

and foster cooperation within the Global South, paving the way for a more equitable food system.

### ALTERNATIVE SOLUTIONS FOR A SUSTAINABLE FUTURE

**Moving Beyond Traditional Agriculture:** Investing in sustainable farming practices such as crop diversification, water conservation, and soil health improvement can build resilience and reduce dependence on external inputs.

**Vertical Farming Soars:** This innovative technique, cultivating crops in stacked layers indoors, offers a promising solution for maximizing land use and optimizing yields in urban environments.

Technological advancements like precision agriculture, using data and sensors to optimize fertilizer and water usage, can significantly improve resource efficiency and boost productivity.

Embracing plant-based alternatives like lab-grown meat and insect protein can reduce reliance on resource-intensive livestock farming and provide sustainable sources of protein for a growing population.

### KEY INSTITUTIONAL INTERVENTIONS

**Global Cooperation-**Bolster resources for emergency relief, vulnerable support, and long-term programs. Promote open and fair trade for agricultural products to prevent market manipulation. Help burdened nations invest in sustainable food systems.

**National Policy Reforms-** Support research into resilient crops, climate-smart farming, and precision agriculture. Implement policies to prevent deforestation, soil erosion, and overgrazing. Expand programs like food subsidies and cash transfers to protect vulnerable populations.

**Institutional Innovations** - Improve storage, transportation, and market infrastructure to reduce food waste. Connect farmers with markets, information, and resources. Promote adoption

of drought-resistant seeds and water-harvesting systems.

**Leveraging Technology-** Utilize data and sensors to optimize resource use and improve productivity. Foster collaboration to scale up solutions and reach wider populations.

## CONCLUSION

The complexities of the food crisis demand a global response, a chorus of voices rising above national interests to address the root causes of hunger and build a more secure food system for all.

# EMERGING TECHNOLOGIES AND THEIR GEOPOLITICAL IMPACT

## RELEVANCE

### □ Syllabus:

- **PSIR:** Changing International Political Order
- **GS2-** Effect of Policies and Politics of Developed and Developing Countries on India's interests

## ARTIFICIAL INTELLIGENCE (AI) AND ITS SECURITY IMPLICATIONS

### MARKET OVERVIEW OF AI (2024)

The projected market size of US\$305.90 billion by 2024 indicates a burgeoning industry with widespread adoption. This growth is likely driven by increased investments in AI technologies across sectors, including healthcare, finance, and manufacturing. The anticipated annual growth rate of 15.83% reflects a sustained and robust demand for AI solutions, underlining the transformative potential of AI-driven innovations in the coming years.

## AI IN GEOPOLITICS AND SECURITY

The instances of deepfakes and AI-powered interference in elections underscore the evolving nature of security threats. State actors leveraging AI for disinformation campaigns reveal not only the technological sophistication of these actors but also the vulnerabilities in global information ecosystems. As AI becomes a tool for geopolitical influence, there is a pressing need for international cooperation to establish norms and regulations to mitigate these risks.

### DISINFORMATION AND PROPAGANDA CAMPAIGNS ONLINE

The examples of coordinated social media campaigns and government-backed bots highlight the weaponization of information in the digital age. In Myanmar, such campaigns fueled violence, indicating the real-world consequences of online misinformation. The reference to India's challenges with hate speech and political manipulation emphasizes the global nature of these issues and the need for tailored regulatory responses at the national level.

## ETHICAL CONSIDERATIONS OF EMERGING TECHNOLOGIES

The concerns raised by the AI Now report regarding facial recognition technology and autonomous weapons systems delve into the ethical dilemmas posed by these technologies. Facial recognition's potential bias against minorities brings attention to the social implications of AI, while questions about accountability in autonomous warfare demand careful consideration of the ethical frameworks guiding AI development. In India, the debate around data protection and ethical AI reflects a broader global discourse on balancing innovation with societal well-being.

## DATA AND GEOPOLITICS

The forecasted growth of the global datasphere to 163 zettabytes by 2025 highlights the exponential increase in data generation. This surge not only signifies the data-driven nature of modern

economies but also poses challenges in terms of privacy and security. The EU's GDPR is an attempt to strike a balance between protecting individual data rights and fostering innovation. The Cambridge Analytica scandal serves as a cautionary tale, revealing the geopolitical consequences of unregulated data use, necessitating comprehensive international agreements on data governance.

## CONCLUSION

The concluding statement underscores the pivotal role of technology as a tool that can be wielded for both positive and negative purposes. It emphasizes the collective responsibility of stakeholders, including governments, corporations, and society at large, to ensure that technological advancements prioritize ethical considerations, inclusivity, and human well-being. Striking this balance is crucial for fostering a future where technology serves as a force for positive societal transformation.

# GLOBAL POWER DYNAMICS AND SHIFTING ALLIANCES

## RELEVANCE

### □ Syllabus:

- **PSIR:** India and the Global Centres of Power:
- **GS2-** Effect of Policies and Politics of Developed and Developing Countries on India's interests

## INTRODUCTION

The world watches with fascination as the established international order faces challenges from rising powers and evolving alliances.

## RISE OF CHINA AND THE US-LED ORDER

China's remarkable economic growth, with a GDP surpassing \$17 trillion in 2022, signifies its emergence as a formidable global player. The rapid increase in defense spending, coupled with initiatives like the Belt and Road Initiative (BRI), reflects China's ambition to reshape global economic partnerships and trade flows. However, the debt trap diplomacy in Africa and territorial assertiveness in the South China Sea and Indian Ocean raise concerns about potential geopolitical tensions. The notion of a "Thucydides Trap," where a rising power challenges an established one, underscores the need for careful diplomacy to avoid conflict.

## BRICS AND THE POTENTIAL FOR MULTIPOLARITY

BRICS, representing a significant portion of the world's population and GDP, challenges the dominance of Western-centric financial institutions. The establishment of the New Development Bank (NDB) demonstrates a cooperative effort to foster economic development independently. This shift towards multipolarity introduces new dynamics in global governance, providing alternatives to traditional power structures.

## REGIONAL SECURITY ALLIANCES AND SHIFTING DYNAMICS

**NATO:** The Ukraine war has reaffirmed NATO's importance, but questions arise regarding expansion and relations with Russia, reflecting evolving dynamics in European security.

**SCO:** The Shanghai Cooperation Organization, led by China and Russia, aims to enhance regional security but raises concerns about its

counterbalancing role to NATO, adding complexity to global security architecture.

**Regional Alliances in Asia:** Initiatives like the Quad and ASEAN cooperation demonstrate a changing landscape in Asia, showcasing evolving security partnerships aimed at balancing China's influence. These partnerships introduce new complexities in the region's strategic balance.

## IMPACT ON INDIA: A BALANCING ACT

India, as the world's 5th largest economy and the most populous democracy, plays a pivotal role in regional power dynamics. Maintaining strategic ties with the US, active participation in BRICS and SCO, and diplomatic engagement with various partners highlight India's multifaceted approach. The challenge lies in balancing China's growing power while preserving strong relations with traditional allies, requiring astute diplomatic maneuvering and asserting India's strategic autonomy.

## EMERGING TRENDS AND UNCERTAINTIES

**Technological Shifts:** The rise of AI, cyberwarfare, and space exploration introduces new dimensions of competition and potential imbalances in global power structures, demanding international collaboration on regulation and norms.

**Climate Change:** Collaboration in addressing climate change may reshape international relations, fostering new alliances centered around shared environmental goals.

**Rise of Non-State Actors:** The influence of non-state actors, including terrorist groups, corporations, and civil society movements, adds an element of unpredictability to global events, challenging traditional state-centric power dynamics.

## CONCLUSION

The future of alliances and power dynamics is influenced by these multifaceted factors. India's

strategic choices, particularly in navigating regional dynamics and emerging global challenges, will play a crucial role in shaping the evolving world order. The need for adaptable diplomatic

strategies, cooperation on shared challenges, and a nuanced approach to emerging technologies will be essential for countries seeking to navigate this complex geopolitical landscape.

## THE FUTURE OF DEMOCRACY IN A FRAGILE WORLD

### RELEVANCE

#### □ Syllabus:

- **PSIR:** Contemporary Global Concerns: Democracy
- **GS2-** Effect of Policies and Politics of Developed and Developing Countries on India's interests

### INTRODUCTION

Democracy, once a shining beacon, now flickers amidst rising authoritarianism and fragile states.

From Budapest to Brasília, concerns **grew** of a democratic retreat. Scholars debate: is this a temporary ebb or a harbinger of decline?

### THE RISE OF POPULISM AND AUTHORITARIANISM

1. **Hungary** under Viktor Orbán restricts press freedom and judicial independence, drawing condemnation from the EU.

2. Jair Bolsonaro's defeat in **Brazil's** 2022 elections offers hope against democratic backsliding, but concerns remain about his supporters' potential challenge to results.

## ROLE OF DISINFORMATION AND FAKE NEWS

- ❑ **Deepfakes** and social media bots manipulate public opinion and sow distrust in democratic processes.
- ❑ Elon Musk's takeover of Twitter amplifies concerns about content moderation and potential for misinformation spread.
- ❑ Fact-checking initiatives and media literacy education are crucial to combating fake news.

## POLITICAL POLARIZATION AND SOCIAL FRAGMENTATION

1. The US is divided on issues like abortion (Roe vs Wade case), gun control, and voting rights, hampering legislative progress and fueling social unrest.
2. Online echo chambers and partisan media exacerbate polarization, making compromise and dialogue difficult like in France, Sweden.

## HOW TO STRENGTHEN DEMOCRATIC RESILIENCE IN THIS WORLD

1. **Civil Society Engagement and Activism:** Protests in Hong Kong, Iran, and Chile highlight the role of citizen movements in demanding democratic reforms. Non-governmental organizations (NGOs) monitor human rights abuses and advocate for democratic values.
2. **Electoral Integrity and Reform-** Secure voting systems and independent election commissions are vital for ensuring public trust in elections.
3. **Global Cooperation and Democratic Norms:** The 2021 Summit for Democracy convenes countries committed to upholding democratic principles. Regional organizations like the European Union and African Union promote democratic values and norms within their member states.

## INDIA'S ROLE IN STRENGTHENING DEMOCRACY

### 1. Regional Leadership and Cooperation:

- ❑ India plays a key role in promoting democratic values and norms within SAARC, advocating for peaceful elections, human rights, and regional stability.
- ❑ International Solar Alliance (ISA) and Bimstec (Bay of Bengal Initiative for Multi-Sectoral Technical and Economic Cooperation) are other examples.

### 2. Sharing Best Practices and Expertise

- ❑ **Election Commission of India (ECI):** has collaborated with other countries to share best practices and contribute to electoral integrity globally.
- ❑ **Development partnerships:** India's technical assistance programs through agencies like ITEC (Indian Technical and Economic Cooperation) share expertise in areas like election management, rural development, and good governance.

- ❑ **Knowledge sharing platforms:** "Vibrant Gujarat Global Summit" and the "Delhi Dialogue," offering platforms for exchanging ideas and collaborating on democratic challenges.

### 3. Challenging Authoritarianism and Promoting Human Rights:

- ❑ India has raised concerns about human rights violations in countries like Myanmar and Sri Lanka.
- ❑ India provided moral and diplomatic support to countries like Afghanistan and Nepal during their democratic transitions
- ❑ India's engagement with UN bodies like the Human Rights Council allows it to contribute to global efforts in promoting and protecting human rights, essential for democratic societies.

# THE REFUGEE CRISIS AND GLOBAL MIGRATION

## RELEVANCE

### □ Syllabus:

- PSIR: Contemporary Global Concerns: Human Rights
- GS2: Effect of Policies and Politics of Developed and Developing Countries on India's interests

### INTRODUCTION

Millions flee war, climate, and persecution, weaving a global narrative of displacement. From Ukraine's bombed cities to Pakistan's flooded plains, humanity seeks refuge. Rohingya yearn for citizenship, Afghan families escape Taliban rule, and Pacific islanders face rising tides. This tapestry of sorrow threads with resilience, fueled by mothers shielding children and young eyes fixed on hope. Communities welcome refugees, aid workers mend wounds, and international cooperation seeks solutions.

### HOW ONGOING WARS AND HUMANITARIAN CRISES CAUSE DISPLACEMENT

- **Ukraine:** 8 million refugees fleeing Russian aggression, creating Europe's worst refugee crisis since WWII.
- **Syria and Yemen:** World's worst humanitarian crisis with the UN-backed truce hanging by a thread.

### CLIMATE CHANGE AND ENVIRONMENTAL DISPLACEMENT

1. Floods in Pakistan displace millions, Island nations like Kiribati face existential threats from rising sea levels, prompting discussions about "climate refugees."
2. The UN predicts 216 million climate migrants by 2050, highlighting the need for proactive planning and adaptation strategies.

### OTHER DRIVERS OF DISPLACEMENT

- Political repression and human rights abuses in Venezuela, Nicaragua, and Myanmar generate large refugee flows.
- Economic hardship in Central America and Religious persecution and ethnic conflicts in regions like the Middle East and Africa.

### OTHER DRIVERS OF DISPLACEMENT

- Political repression and human rights abuses in Venezuela, Nicaragua, and Myanmar generate large refugee flows.
- Economic hardship in Central America and Religious persecution and ethnic conflicts in regions like the Middle East and Africa.

### ISSUES IN SEEKING REFUGE

- Cultural differences, language barriers, and lack of economic opportunities hinder refugee integration.
- Xenophobia and anti-immigrant sentiment pose additional challenges to acceptance and inclusion like islamic fundamentalism in France and Sweden.

## GLOBAL RESPONSIBILITY SHARING AND REFUGEE PROTECTION FRAMEWORKS

- ❑ The UN Refugee Agency (UNHCR) coordinates international response to refugee crises and advocates for their protection.

## WHAT ARE THE POSSIBLE SOLUTIONS AND NEW PATHWAYS

- ❑ Conflict resolution efforts and investment in peacebuilding initiatives, Tackling climate change and Addressing economic inequalities and human rights abuses can stem the tide of forced migration.
- ❑ Supporting regional resettlement initiatives and providing financial assistance to host countries are crucial for managing existing refugee populations.
- ❑ Online platforms connect refugees with essential services and information in their native languages.

## INDIA'S UNIQUE ROLE IN THE REFUGEE CRISIS

- ❑ Host to over 200,000 refugees and asylum seekers: Primarily from Sri Lanka, Afghanistan, Myanmar, and Bangladesh.
- ❑ Long history of hosting refugees: Dating back to Partition in 1947, with communities like Tibetan refugees finding long-term refuge in India.
- ❑ Mixed approach to refugee protection: No formal adherence to the 1951 Refugee Convention, leading to inconsistent legal status and rights for refugees.
- ❑ Recent controversies: Deportation of Rohingya refugees and concerns about citizenship rights for Sri Lankan Tamils.

# INDIAN GOVERNMENT AND POLITICS (IGP)

## SUB CATEGORISATION OF OBC CASTES

### RELEVANCE

#### Syllabus:

- ❑ **GS2:** Government policies and interventions
- ❑ **PSIR:** Caste, Religion, and Ethnicity in Indian Politics.

### INTRODUCTION

The idea of subcategorisation within the Other Backward Classes (OBC) category in India is a highly complex and politically charged topic. It aims to create smaller groups within the OBC, with the intention of ensuring that reservation benefits reach the most disadvantaged communities within the wider category. However, the proposal has sparked significant debate, raising questions about its feasibility, effectiveness, and potential negative consequences.

### RATIONALE FOR SUBCATEGORISATION

**Addressing Concerns of Inequitable Distribution:** The 27% reservation for OBCs in education and jobs hasn't always reached the most disadvantaged, with affluent communities within the category seemingly benefitting more. Subcategorisation aims to rectify this by creating smaller quotas within the existing reservation.

**Empowering Smaller Communities:** Many smaller OBC communities feel they are overshadowed by larger ones within the category, making it difficult for them to access benefits. Subcategorisation could provide them with a greater share of opportunities.

### CHALLENGES AND DEBATES

**Lack of Reliable Data:** The absence of a recent caste census creates difficulties in accurately assessing the population size and socio-economic status of individual OBC communities, making it hard to set fair sub-quotas.

**Potential for Further Fragmentation:** The introduction of sub-categories could exacerbate existing social divisions within and between OBC communities, leading to increased competition and animosity.

**Political Feasibility:** Implementing subcategorisation requires political consensus, which is difficult to achieve given the diverse interests and sensitivities involved.

### SUPREME COURT JUDGMENTS

The Supreme Court has provided mixed stances on subcategorisation:

**Indira Sawhney v. Union of India (1992):** Acknowledged the potential benefits but emphasized the need for "compelling reasons" and "adequate data" before implementing subcategorisation.

**EWS case (2020):** Recognized the potential for further fragmentation but left the decision to the legislature, emphasizing due process and fair representation.

### EXAMPLES AND CASE STUDIES

**Andhra Pradesh** implemented a two-tier system within OBCs in 1995, but its effectiveness remains contested. Studies suggest that benefits haven't significantly reached the most disadvantaged communities.

**Bihar's** model divides OBCs into "Extremely Backward Classes" and "Backward Classes," with separate quotas for each. However, concerns have been raised about its implementation and potential for misuse.

### COMMITTEES FORMED

In 2017, the Indian government formed the Commission for Sub-Categorisation of OBCs under Justice G. Rohini to examine the issue and recommend a way forward. The commission's mandate included:

Assessing the extent of inequitable distribution of reservation benefits within OBCs.

Developing criteria and parameters for subcategorisation.

Identifying and classifying castes/communities within the OBC list into sub-categories.

### WAY FORWARD

**Reliable Data:** Conducting a caste census or utilizing alternative data sources like Socio-Economic and Caste Census (SECC) data is crucial.

**Transparent Criteria:** Objective and transparent criteria based on socio-economic indicators, not solely caste, should be established for subcategorisation.

**Inclusive Consultation:** Open and inclusive consultations with OBC communities and experts are essential to ensure fairness and address concerns.

**Robust Safeguards:** Measures to prevent political manipulation and misuse of sub-categorisation are vital.

**Alternative Approaches:** Exploring alternative strategies like universal education and targeted affirmative action programs could be valuable alongside subcategorisation.

### CONCLUSION

The subcategorisation of OBC castes remains a contentious issue with no easy answers. Open and informed public discourse, rigorous data collection, and careful consideration of diverse perspectives are essential before moving forward with such a substantial social policy change.

## RESERVATION FOR TRANSGENDER COMMUNITY

### RELEVANCE

#### Syllabus:

- GS2: Social Justice**
- PSIR: Gender Justice**

Advocate General Birendra Saraf, representing the Maharashtra government, expressed difficulties in providing additional reservations for transgender persons due to the existing extent of vertical and horizontal reservations. This matter is currently pending before the Supreme Court. On June 27, there was a protest in Mumbai where transgender persons voiced their disagreement with the state's stance.

In India, the fight for horizontal reservation rights has been ongoing among trans persons for a considerable period. Prominent activists, including Grace Banu, Living Smile Vidya, and Disha Pinky

Shaikh, along with Dalit, Bahujan, and Adivasi activists, have all raised their voices in support of the demand for reservation.

### WHAT HAVE THE COURTS SAID ON RESERVATION FOR THE TRANSGENDER COMMUNITY?

In the landmark case of National Legal Services Authority of India (NALSA) v. Union of India in 2014, the Supreme Court of India ruled in favor of transgender persons' rights. The court recognized transgender individuals as belonging to a socially and educationally disadvantaged class. As a result, the judgment asserted that transgender persons are entitled to reservation benefits, which aim to provide them with equal opportunities in education and public employment.

The court directed both the Central Government and State Governments to take necessary measures to acknowledge transgender persons as socially and educationally disadvantaged citizens. This recognition would enable them to avail all types of reservation benefits, including those

related to admissions in educational institutions and appointments to public positions.

While the NALSA judgment acknowledged the entitlement to reservation, it did not specify whether these reservations should be vertical or horizontal in nature, leaving it open for further interpretation and implementation by the concerned authorities.

### WHAT IS HORIZONTAL RESERVATION?

In India, there are affirmative action policies aimed at addressing historical disadvantages faced by certain communities. These policies can be categorized into vertical and horizontal reservations.

Vertical reservations focus on addressing social asymmetry due to the caste system, as well as social and educational backwardness among Other Backward Classes (OBCs). They include

reservations for Scheduled Castes (SC), Scheduled Tribes (ST), and OBCs.

On the other hand, horizontal reservations cut across all vertical groups and provide affirmative policies for disadvantaged groups within categories. For instance, disabled individuals are entitled to horizontal reservation in all vertical categories, irrespective of whether they are considered general or reserved.

Some states, such as Uttarakhand and Bihar, have introduced policies that guarantee horizontal reservation for women. This means that women belonging to the SC category, for example, can avail of reservation benefits based on both their caste and gender. Transgender individuals are also advocating for similar horizontal reservation rights.

### WHAT IS THE DEMAND FOR HORIZONTAL RESERVATION?

The issue at hand pertains to the necessity of instituting mandatory provisions for a historically marginalized community in society, while acknowledging the various components of their social identity.

According to a study conducted by the National Human Rights Commission, in 2017, only 6 percent of transgender individuals were formally employed. A considerable segment of the community found themselves involved in informal work, such as begging and sex work, which have been criminalized in India through various Acts and laws. However, transgender individuals often resort to such occupations due to cultural practices and the need for survival.

The interpretation of the NALSA verdict has predominantly leaned towards advocating reservations for transgender people within the Other Backward Classes (OBC) category. This interpretation likely arose from the court recognizing the community as “a socially and educationally backward class.” Nevertheless,

despite this acknowledgement, no practical implementation of such reservations has taken place thus far.

Furthermore, activists from the transgender community argue that this approach could adversely affect transgender individuals from Dalit, Bahujan, and Adivasi backgrounds. They may face a dilemma, having to choose between availing reservation benefits based on their caste or tribal identity versus their gender identity. This potentially creates a situation where one aspect of their identity might be prioritized at the expense of the other.

### WHAT HAS HAPPENED SO FAR ON HORIZONTAL RESERVATIONS?

Since the landmark NALSA judgment, the Central government has not taken any concrete steps to ensure the implementation of reservation rights for transgender individuals.

Back in 2015, Rajya Sabha DMK MP Tiruchi Siva introduced the Rights of Transgender Persons Bill, which was developed in consultation with the transgender community. This Private Member’s Bill aligned with the NALSA judgment and included provisions for reservation of jobs in both the public and private sectors for transgender individuals. Although the Bill was passed in the Rajya Sabha, it faced rejection in the Lok Sabha. Instead, the Centre introduced the Transgender Persons (Protection of Rights) Bill, 2016, which lacked any provision for reservations.

Subsequently, in 2018, a parliamentary standing committee, chaired by BJP MP Ramesh Bais, was established under the Ministry of Social Justice. This committee also recommended reservations for transgender persons in accordance with the NALSA judgment. However, when the Transgender Persons (Protection of Rights) Act, 2019 was passed, it did not include any provisions for reservation, either vertical or horizontal.

In contrast, the Rights of Persons with Disabilities Act, 2016, included provisions for horizontal reservation for disabled individuals, ensuring their representation in various spheres under the Central government.

On a state level, some progress has been made. In 2015, Tamil Nadu categorized “transgender or eunuch (thirunangai or aravani)” as transwomen and included them in the Most Backward Classes (MBC) category. Karnataka became the first and only state to provide one percent horizontal

reservation to transgender individuals in 2021 following the Sangama v State of Karnataka case. Similarly, in April of this year, Madhya Pradesh included transgender persons in the Other Backward Classes (OBC) category.

Despite these state-level initiatives, there has been a lack of comprehensive action from the Central government to implement reservation rights for transgender individuals, leaving their representation and opportunities for socio-economic growth unaddressed.

## THE FUTURE OF INDIA'S SECULARISM

### RELEVANCE

#### Syllabus:

- ❑ **GS2:** Government policies and interventions
- ❑ **PSIR:** Salient Features of the Indian Constitution

**Why India Should Revisit it's Secularism? Critical Analysis**

#UPSC #IAS  
by Shashank Tyagi

STUDY IQ IAS

## UNDERSTANDING THE HISTORICAL AND CONSTITUTIONAL FRAMEWORK OF SECULARISM IN INDIA:

### Evolution of the Concept:

**Pre-colonial India:** Diverse religious communities coexisted with relative autonomy under various empires.

**Secular state under British rule:** Introduction of secular principles within a colonial context.

**Post-independence and the Nehruvian vision:** Envisioning a nation where all religions co-exist equally with the state remaining neutral.

**Key constitutional principles:** Article 25 (religious freedom), Article 26 (right to manage religious affairs), and Article 27 (prohibition of discrimination based on religion).

## CHALLENGES AND INTERPRETATIONS

### Balancing individual religious rights with secular values:

The Uniform Civil Code proposal, aiming for a common set of personal laws across religions, faces opposition from groups worried about losing the distinct cultural and religious practices enshrined in their existing personal laws.

Balancing the right to wear religious attire with concerns about dress codes in educational institutions has also sparked debate.

### Role of the judiciary in upholding secularism:

Landmark cases like **Shah Bano** (upholding Muslim women's right to maintenance) and **Sabarimala** (permitting women's entry into a Hindu temple) have expanded the scope of religious freedom while also setting limits on patriarchal practices.

### Rise of Religious Fundamentalism:

**Communal violence and hate crimes:** -According to the National Crime Records Bureau, hate crimes based on religion rose by 25% between 2014 and 2019. The Delhi riots of 2020, where religious tensions escalated into violence, serve as a stark

example of the potential consequences of rising religious animosity.

### Politicization of religious symbols and rituals-

The Gyanvapi controversy is a prime example of religious symbols being utilized for political gain, potentially exacerbating inter-religious tensions. Similarly, political leaders invoking religious slogans and imagery during elections can further politicize religion and undermine secular values.

### Weakening of Institutions

Concerns about bias and politicization: Accusations of police bias against minority communities have surfaced in cases like the 2020 Hathras gang rape, raising concerns about fair access to justice for all. Allegations of political pressure on the judiciary regarding certain sensitive cases like the Citizenship Amendment Act (CAA) have also emerged.

### Erosion of academic freedom and suppression of dissent:

Crackdowns on student protests and activists voicing dissent against government policies raise questions about democratic spaces for discourse.

### Role of Social Media and Hate Speech

Platforms like Facebook and Twitter have been used to spread false narratives and demonize religious minorities, often leading to real-world violence.

The 2020 Tablighi Jamaat event, for example, became the target of online misinformation campaigns portraying Muslims as responsible for the spread of COVID-19, inciting hate crimes and social stigma.

## REDEFINING SECULARISM IN CONTEMPORARY INDIA

### 1. Accommodationism vs. Secularism

#### Arguments for Accommodationism:

**Recognizing unique needs:** For example, dietary restrictions for Hindus and Muslims might necessitate adjustments in school meals or hospital menus.

### Respecting cultural diversity

**Preventing homogenization:** Accommodationists fear that a rigid, “one-size-fits-all” secularism might threaten the cultural richness and identity of different communities.

#### Concerns about Accommodationism:

**Appeasement:** Critics argue that excessive accommodation can lead to accusations of “appeasement politics,” favouring certain groups over others.

**Dilution of secular principles:** Concerns arise about a slippery slope, where accommodating some practices might infringe upon fundamental secular values like gender equality or individual rights.

**Example:** The debate over the Uniform Civil Code (UCC) exemplifies this tension.

### 2. Inclusive Secularism:

Citizenship, equality, and tolerance are central to this approach.

**Interfaith Dialogue and Understanding:** Inclusive secularism promotes interfaith dialogue and cultural exchange to break down stereotypes, build bridges, and foster mutual respect between different religious communities.

**Addressing Grievances:** This approach emphasizes identifying and addressing legitimate grievances of marginalized communities to ensure equal opportunities and combat discrimination based on religion.

**Example:** Interfaith initiatives like the “Sarva Dharma Sambhav” program by the Ministry of Culture promote national integration.

### 3. State Neutrality vs. Positive Secularism:

#### State Neutrality:

This traditional view advocates for the state to remain neutral in religious matters, neither promoting nor favoring any particular religion.

### Positive Secularism:

This approach suggests a more active role for the state in promoting secular values. Beyond remaining neutral, the state actively combats discrimination, promotes interfaith harmony, and educates citizens about the importance of tolerance and respect for diverse beliefs.

India currently follows a state neutrality model, but proponents of positive secularism argue for adopting measures like anti-discrimination laws, secular education reforms, and affirmative action policies to actively uphold secular principles.

Countries like France and Turkey implement models of positive secularism, with varying degrees of state intervention in religious affairs. However, concerns arise about potential infringement on religious freedom and overreach by the state.

**Example:** The debate on banning Hijabs in educational institutions highlights the clash between religious freedom and promoting secular values. Proponents of the ban argue it fosters national unity and secular principles, while opponents see it as an infringement on individual expression and religious rights.

## CIVIL SOCIETY AND INSTITUTIONS: GUARDIANS OF INDIA'S SECULAR VALUES

### Grassroots Activism:

**Interfaith Initiatives:** Organizations foster understanding and cooperation through dialogues, workshops, and cultural events, breaking stereotypes and building bridges.

**Advocates for Reform:** Advocacy groups work towards progressive legal reforms like the Uniform Civil Code, institutionalizing secular principles and securing equal rights. Example: The “Harmony Movement” empowers young people from diverse backgrounds to work together on social development project.

### Educational Institutions:

**Curriculum Reforms:** School and university curricula can be reshaped to promote critical thinking, tolerance, and respect for religious diversity through incorporating teachings on different faiths.

**Combating Bias and Discrimination:** Robust grievance mechanisms, sensitivity training for educators, and zero-tolerance policies against hate speech ensure a safe and inclusive environment for all students.

Example: Ashoka University's "Peacebuilding through Interfaith Dialogue"

## FREEBIES IN INDIA

### RELEVANCE

#### Syllabus:

- ❑ **GS2:** Government policies and interventions
- ❑ **PSIR:** Salient Features of the Indian Constitution

### DEFINITION AND TYPES OF FREEBIES

#### What are "freebies" in the Indian context?

In India, "freebies" generally refer to public welfare measures provided at no cost to the beneficiaries.

**Example:** Free electricity up to a certain limit provided by some state governments could be considered a welfare scheme, while distributing free laptops or smartphones might be seen as a populist giveaway.

#### Are they all the same?

No, freebies can be categorized into different types based on their nature and objectives:

1. **Welfare schemes:** These aim to address basic needs like poverty, hunger, and education. Examples include the Mid-Day Meal Scheme in schools or the Pradhan Mantri Jan Dhan Yojana providing bank accounts to the unbanked.
2. **Subsidies:** These involve the government providing financial support to reduce the cost of essential goods and services like food, fuel, or fertilizers.
3. **Direct cash transfers:** This involves transferring money directly to beneficiaries, like the Pradhan Mantri Kisan Samman Nidhi for farmers.

4. **Electoral promises:** During elections, political parties may promise freebies like appliances, cash handouts, or loan waivers to woo voters. These are often criticized for being unsustainable and distorting policy priorities.

### COMMON TYPES OF FREEBIES

1. **Free electricity:** Several states like Andhra Pradesh and Tamil Nadu offer free electricity up to a certain consumption limit.
2. **Free water:** Goa and Delhi provide free water supply to households.
3. **Free education:** Many states offer free education at the primary and secondary levels, and some even waive tuition fees for higher education.
4. **Free healthcare:** Public healthcare facilities are generally free at the point of service, though quality and availability can vary.

**5. Appliances:** Some states have distributed free washing machines, TVs, or fans to specific groups like farmers or women.

### ARGUMENTS FOR FREEBIES

**Poverty alleviation and social safety nets:** Freebies can help vulnerable sections of society meet their basic needs and escape poverty. For example, free midday meals incentivize children from poor families to attend school.

**Improving human development indicators:** Free education and healthcare can lead to higher literacy rates, better health outcomes, and overall improved human development.

**Stimulating economic growth:** Increased consumption due to freebies can boost economic activity in certain sectors.

**Empowering vulnerable groups and achieving social justice:** Freebies can empower marginalized groups like women or farmers by addressing their specific needs and promoting equality.

### ARGUMENTS AGAINST FREEBIES

**Fiscal burden on the state and potential for debt accumulation:** Providing freebies can strain government finances, leading to higher deficits and debt levels. The CAG report (2020) estimated the combined fiscal burden of free electricity, water, and transport in four Indian states to be around Rs. 2.5 lakh crore per year.

**Misallocation of resources and displacement of private investment:** Freebies can divert resources away from more productive uses, discouraging private investment in essential sectors.

**Encouraging dependency and lack of individual initiative:** Critics argue that freebies can create a culture of dependence, discouraging people from seeking employment or improving their skills.

**Distortion of market forces and economic inefficiency:** Freebies can distort market prices and incentives, leading to inefficiencies and hindering long-term economic growth.

**Political manipulation and use as electoral bribes:** Freebies offered during elections can be seen as a form of political opportunism, manipulating voters for short-term gains without addressing long-term development needs.

### IMPACTS OF FREEBIES

**Economic:** Freebies can affect government budgets, inflation, and economic growth. For example, providing free electricity can strain state finances and lead to higher electricity tariffs for non-beneficiaries.

**Social:** Freebies can impact poverty, inequality, and human development. For example, free education can increase literacy rates but its effectiveness depends on the quality of education provided.

**Political:** Freebies can influence electoral politics and governance quality. Critics argue that they encourage populism and can lead to unsustainable fiscal policies.

**Environmental:** Some freebies, like free water, can put pressure on natural resources and have environmental consequences if not managed sustainably.

### CURRENT DEBATES AND CHALLENGES

**The Supreme Court's intervention:** 2013 S. Subramaniam Balaji vs. State of Tamil Nadu, The court ruled that promising freebies in manifestos is not a corrupt practice under the Representation of People Act, 1951, but raised concerns about their impact on fiscal responsibility.

**Striking a balance:** Finding a balance between social welfare and fiscal responsibility is a critical challenge. Governments need to ensure that freebies are targeted effectively to those who need them most while minimizing the burden on public finances.

**Addressing corruption and leakages:** Robust monitoring and evaluation mechanisms are crucial to ensure that benefits reach the intended beneficiaries.

**Finding alternative approaches:** This could involve investments in education, healthcare, and skill development, empowering individuals to become self-sufficient in the long term.

### CASE STUDIES AND COMPARISONS

**Analyzing specific states:** Examining the freebie policies of different Indian states, like the “Amma Freebies” scheme in Tamil Nadu or the “Shagun scheme” in Himachal Pradesh, can provide valuable insights into their effectiveness and challenges.

**Comparisons with other countries:** Comparing India’s approach to freebies with other developing

countries’ social welfare programs, like Brazil’s Bolsa Familia or Mexico’s Oportunidades, can offer valuable lessons on designing and implementing effective programs.

### CONCLUSION

The debate on freebies in India is multifaceted with valid arguments on both sides. Finding a balance between social welfare and fiscal responsibility, designing effective programs with minimal negative consequences, and exploring alternative approaches to poverty reduction will be key to navigating this complex issue and ensuring sustainable development for all in India.

## CASTE RESERVATIONS IN HIGHER EDUCATION

### RELEVANCE

**Syllabus:**

- ❑ **GS2- Indian Constitution: Amendments, legislations, provisions.**
- ❑ **PSIR-Role of Religion, Caste and Ethnicity in Indian Politics.**

**Context:** The recent release of the Bihar caste survey results has once again sparked the flames of caste-based politics in India.

### INTRODUCTION

49.5% seats in central government-funded higher education institutions are reserved for Scheduled Castes (SCs), Scheduled Tribes (STs), and Other Backward Classes (OBCs). This translates to nearly 500,000 reserved seats annually. Breakdown: 15% for SCs (over 225,000 seats), 7.5% for STs (around 112,500 seats), and 27% for OBCs (approximately 375,000 seats). The remaining 50.5% of seats are available for the general category.

### WHAT IS THE RATIONALE BEHIND SUCH A SYSTEM

**Addressing Historical Disadvantage:** Census data shows that SCs, STs, and OBCs have significantly lower literacy rates (as low as 56% for STs) and higher poverty rates compared to the general category.

**Increasing Representation:** Despite reservations, only 22% of SCs and 16% of STs have attained higher education compared to 40% of the general category.

**Social Justice and Inclusivity:** The Sachar Committee report (2005) found widespread socio-

economic and educational backwardness among OBCs, necessitating reservations.

### WHAT ARE THE ARGUMENTS IN FAVOUR OF RESERVATION

- ❑ **Data-driven Need:** A 2020 study by the Centre for Economic and Social Studies found that without reservations, OBC and SC representation in IITs would be only 7% and 3%, respectively, far below their population share.
- ❑ **Promoting Inclusion:** leads to greater understanding and acceptance within institutions, combating social stigma.
- ❑ **Diverse Leadership:** Research by the World Bank suggests reservations contribute to improved governance and policy responsiveness to diverse groups.

### WHAT ARE THE ARGUMENTS AGAINST RESERVATION

- ❑ **Reverse Discrimination:** Some argue that reservations disadvantage qualified general category students, citing reduced seat availability.
- ❑ **Meritocratic Concerns:** Critics point to studies suggesting a potential dip in average admission scores for reserved categories, raising questions about academic standards.
- ❑ **Ineffective Implementation:** Concerns exist that benefits may not reach the most

disadvantaged within reserved categories, perpetuating internal inequalities.

### WHAT REPORTS AND COMMITTEES HAVE TO SAY

- ❑ The Supreme Court upheld the 10% reservation for Economically Weaker Sections, adding another layer and intensifying debates about fairness and potential overlap with existing caste-based reservations.
- ❑ The Mandal Commission report (1979) recommended OBC reservations, facing initial backlash but leading to significant increases in OBC representation in higher education.
- ❑ The Parliamentary Standing Committee on SC/ST (2018) recommended strengthening monitoring mechanisms and addressing quality concerns in institutions allocated solely for reserved categories.

### CONCLUSION

It's crucial to acknowledge the complexity of this issue and engage in informed discourse. While concerns exist about implementation and meritocratic considerations, data indicates that reservations play a vital role in increasing representation and promoting social justice in Indian higher education. Continuous research, monitoring, and policy adjustments are necessary to optimize the impact of reservations and ensure they effectively address historical inequalities while maintaining academic standards.

## RELIGIOUS FREEDOM AND MINORITIES IN INDIA

### RELEVANCE

#### Syllabus:

- ❑ **GS2- Indian Constitution: Amendments, legislations, provisions.**
- ❑ **PSIR-Role of Religion, Caste and Ethnicity in Indian Politics.**

## INTRODUCTION

The Indian Constitution, in its Preamble, guarantees “liberty of thought, expression, belief, faith and worship” to all citizens. Articles 14-18 ensure equality before the law and non-discrimination based on religion. Article 25 grants every citizen the right to freely profess, practice, and propagate their religion. Article 29 protects the interests of minorities in educational institutions.

## WHAT ARE THE CHALLENGES OF INTOLERANCE

1. NCRD 2021 reported a 25% increase in hate crimes against religious minorities compared to 2020.
2. Mob lynchings of Muslims, cow protection vigilantism targeting Dalits and Muslims, and attacks on Christian missionaries raise concerns about rising communal tensions.
3. Increased online hate speech and polarization further exacerbate tensions and create a climate of fear for minorities.

## NEED TO BALANCE COMPETING RIGHTS

National security: The government argues that combating terrorism and separatism requires

restrictions on certain religious activities (e.g., cow slaughter ban).

Individual freedoms: Critics argue such restrictions disproportionately impact minorities, violating their religious rights and fostering a sense of alienation.

## NEED TO BUILD BRIDGES ACROSS FAITHS FOR INCLUSIVITY

Interfaith dialogue: Fostering understanding and respect between different religious communities through educational initiatives, community outreach programs, and interfaith platforms.

Positive narratives: Promoting media coverage and educational materials that highlight the contributions of minorities to Indian society and celebrate its pluralistic heritage.

Strengthening institutions: Ensuring impartial law enforcement, judicial independence, and a vibrant civil society to protect minority rights and address grievances.

## THE RECENT POLICY MEASURES AND LEGAL LANDSCAPE

- ❑ **Supreme Court rulings:** Landmark judgements like the Sabarimala temple case (2018) upholding women’s right to worship and the triple talaq ban (2017) offer hope for progressive interpretations of religious freedoms.
- ❑ **Government initiatives:** Measures like the “Minority Affairs Ministry” and “Haji subsidy scheme” aim to empower and support minority communities.
- ❑ **Civil society initiatives:** NGOs and religious leaders play a crucial role in advocating for minority rights, promoting interfaith dialogue, and fighting discrimination.

# SOCIAL JUSTICE AND INCLUSION IN INDIA

## RELEVANCE

### Syllabus:

- ❑ **GS2:** Government Policies
- ❑ **PSIR:** Equality: Social, political, and economic; the relationship between equality and freedom; Affirmative action.

### INTRODUCTION

India, a nation boasting of vibrant diversity and ancient philosophies of equality, struggles with the persistent reality of social injustice and exclusion. Despite constitutional guarantees and affirmative action policies, millions face discrimination and inequities based on caste, gender, religion, and other factors.

### AFFIRMATIVE ACTION POLICIES

Despite constitutional guarantees and affirmative action policies, disparities persist in higher education. While there's increased representation of SC/ST/OBCs in institutions like IITs and medical colleges, top private institutions exhibit underrepresentation, leading to high dropout rates among marginalized communities.

The success of reserved seats, exemplified by the Ambedkar Institute of Technology, underscores the potential of affirmative action in providing quality education. Initiatives like Unnat Bharat Abhiyan and government scholarships further contribute to increased access.

#### **Beyond Reservations:**

**Example:** Ambedkar Institute of Technology, Delhi, showcasing success in providing quality education to marginalized communities.

**Example:** Unnat Bharat Abhiyan initiative connecting engineering students with villages to bridge knowledge gaps and promote inclusive development.

**Data:** 30% scholarships allotted to SC/ST students in government schemes boost access to higher education.

**Sub-categorization within Reserved Categories:**

**Debate:** Proposals for sub-quotas within SC/ST categories to address internal inequalities; critics argue this might fragment Dalit unity.

**Data:** NSSO data reveals economic disparities within OBCs, making a case for targeted interventions based on socio-economic conditions.

### CHALLENGES FOR SC/ST/OBCS

Despite affirmative measures, challenges persist for marginalized communities, reflected in lower literacy rates and persistent social practices like manual scavenging. The Bhima-Koregaon violence incident in 2020 highlights the continued targeting of Dalit communities.

**Data:** Literacy rate for SCs (66.1%) and STs (59%) significantly lower than the national average (74.04%).

**Example:** Manual scavenging by Dalit communities persists, highlighting entrenched social practices.

**Incident:** 2020 Bhima-Koregaon violence raises concerns about continued targeting of Dalit communities.

### TACKLING CASTE AND GENDER DISCRIMINATION

Institutional and legal frameworks, while having some successes, face limitations. The NCRB 2021 reports an increase in SC/ST crimes, emphasizing

the need for a more robust legal framework. Initiatives like the POSCO Act have been successful in convicting child sexual abusers, but underreporting remains a challenge.

**Institutional and Legal Frameworks:**

**Data:** NCRB 2021 reports SC/ST crimes increased by 10%, highlighting limitations of the legal framework.

**Example:** POCSO Act success in convicting child sexual abusers, but underreporting remains a challenge.

**Grassroots Movements and Social Change:**

**Example:** Dalit Panthers movement fights against caste atrocities and asserts Dalit identity.

**Progress:** Increased female literacy rate (70.5%) due to sustained efforts by women's rights organizations.

**Emerging Issues and Intersectional Challenges:**

**Data:** 91% transgender individuals faced discrimination in healthcare access.

**Example:** Honour killings of Dalit women showcase intersectional vulnerabilities based on caste and gender.

### CONCLUSION

A nuanced understanding of social justice and inclusion requires acknowledging both progress and challenges, incorporating data-driven analysis, and considering multiple voices and experiences. Continuous efforts are needed to address systemic issues and promote a more inclusive and equitable society.

## JUDICIARY AND JUDICIAL ACTIVISM

### RELEVANCE

**Syllabus:**

- GS2:** Structure, Organization and Functioning of the Judiciary
- PSIR:** Principal Organs of the Union Government

# JUDICIAL ACTIVISM

## INTRODUCTION

The Indian judiciary, particularly the Supreme Court, occupies a unique space in the country's political landscape. The interplay between the judiciary and judicial activism is a complex and often contentious topic, sparking debates about power, justice, and the rule of law.

## DEFINITION AND SCOPE OF JUDICIAL ACTIVISM

### Proponents:

Judicial activism is seen as a vital tool to protect fundamental rights, foster social justice, and address legislative gaps. Scholars like Upendra Baxi argue that the judiciary, through activism, can act as a bulwark against potential rights violations.

### Critics:

Critics, represented by voices like Granville Austin, caution against judicial overreach, emphasizing the importance of maintaining legislative supremacy and the separation of powers. They argue that an

overly active judiciary could disrupt the delicate balance between the branches of government.

## LANDMARK JUDGMENTS AND POLICY IMPACT

### Impact on Policies:

Supreme Court judgments, such as those related to the Right to Education Act, Right to Food Security Act, and the decriminalization of homosexuality, demonstrate the judiciary's substantial influence on policy formulation in India.

### Key Judgments:

1. **Kesavananda Bharati v. State of Kerala (1973)** is a landmark case that established the basic structure doctrine, limiting legislative power to amend the Constitution.
2. The **Aadhaar judgment (2017)** influenced government policy on Aadhaar usage, sparking debates on the balance between privacy and security.

## TYPES OF JUDICIAL ACTIVISM

- 1. Proactive Intervention:** Judges initiating policies or programs, as seen in the right to education in India, based on societal needs is an example of proactive judicial intervention.
- 2. Negative Activism:** Striking down laws deemed unconstitutional, exemplified in the decriminalization of homosexuality in India, reflects negative activism aimed at eliminating legal provisions violating fundamental rights.
- 3. Interpretive Activism:** Expanding the scope of existing laws, as witnessed in the case of prison reforms in India, is a form of interpretive activism employed to uphold fundamental rights.

## ARGUMENTS FOR AND AGAINST JUDICIAL ACTIVISM

### Arguments for:

- 1. Filling the Void:** Judicial intervention becomes necessary when legislative inaction persists on critical issues like environmental protection.
- 2. Protecting Marginalized Groups:** The judiciary can act as a safeguard for the rights of minorities and vulnerable communities often overlooked by the legislature.
- 3. Promoting Social Progress:** Activism can accelerate social reforms and ensure equal access to justice for all.

### Arguments against:

- 1. Judicial Overreach:** Critics argue that judges might exceed their constitutional mandate, encroaching on legislative powers.

- 2. Undermining Democracy:** There is concern that an overly active judiciary may weaken the role of elected representatives, impacting public accountability.
- 3. Lack of Accountability:** Unlike elected officials, judges are not directly accountable to the public, raising concerns about a potential lack of checks and balances.

## GLOBAL PERSPECTIVES AND COMPARISONS

### US Supreme Court and Landmark Judgments:

Analyzing the impact of cases like *Roe v. Wade* and *Brown v. Board of Education* on American society provides insights into the role of the judiciary in shaping national narratives and policies.

### Role of the Judiciary in Developing Countries:

Studying how judicial activism shapes governance and human rights in countries like South Africa and Brazil provides a comparative perspective on the challenges and benefits of an active judiciary in diverse contexts.

Evolving International Jurisprudence:

## CONCLUSION

Examining the role of international courts and tribunals in upholding human rights and resolving global disputes sheds light on the broader implications of judicial activism on a global scale.

# MAINS PRACTICE QUESTIONS

**Q) Discuss the role of women in Panchayats in India?**

**Introduction-Briefly tell about 73rd Constitutional Amendment in India**

Mahatma Gandhi championed the idea of Panchayati Raj as the cornerstone of India's political framework, advocating for a decentralized form of government in which each village would manage its own affairs. In contemporary India, Panchayati Raj serves as a governance system where gram panchayats are the fundamental units of local administration. This system was officially established in 1992 through the 73rd amendment to the Indian Constitution. As per Article 243(d) (2) and (3), a minimum of one-third of seats designated for direct election at each Panchayat level must be reserved for women.

**Body-Discuss the performance of women in Panchayati Raj**

According to the Ministry of Panchayati Raj's mid-term assessment of the 'State of the Panchayats 2006-07', over 10 lakh women actively participate in our Panchayati Raj institutions, constituting 37 percent of all elected members, and reaching as high as 54 percent in Bihar, which implements 50 percent reservation for women. States such as Madhya Pradesh, Bihar, Uttarakhand, Himachal Pradesh, Andhra Pradesh, Chhattisgarh, Jharkhand, Kerala, Karnataka, Maharashtra, Orissa, Rajasthan, and Tripura have also adopted 50% reservation for women in Panchayati Raj Institutions (PRIs). The presence of women in Gram Sabha meetings increases significantly when the Pradhan (village head) is a woman. Women-led panchayats excel in tasks like road construction, managing drinking water facilities, and administering government loan schemes. However, their performance in ensuring irrigation facilities is less effective. Women-led panchayats tend to prioritize addressing social issues such as child marriage, the indiscriminate sale of alcohol, witch-hunting, and similar problems.

Nevertheless, studies conducted by scholars like Rohini Pande point to various constraints that continue to limit women's roles in Panchayats. These constraints include the lack of security for women members, hindering their ability to visit remote areas during odd hours or attend meetings in distant locations. Additionally, limited information and knowledge about government programs, especially those related to women and child development, pose challenges. The scarcity of formal education results in an information gap and dependency on second-hand knowledge, while language barriers impede performance since many official correspondences, rules, and regulations are in English. Moreover, women often cannot sustain their involvement in politics due to rotational reservation policies, and women candidates are rarely nominated from unreserved seats.

**Conclusion**

While the ideals of equality enshrined in the constitution are laudable, the full potential of the 73rd amendment is yet to be realized. It is a significant step towards achieving gender equality, but it should be seen as a means to an end. The ultimate goal is to ensure proper and adequate representation of women not only in Panchayats but also in the national parliament. Many international organizations gauge a country's commitment to women's development and empowerment by the number of female representatives in parliament, an area where India still has room for improvement.

### **Q) How can India effectively balance its relations with the United States and China amidst the ongoing superpower rivalry?**

India finds itself strategically nestled between the two titans of the 21st century - the United States and China. Balancing relations with these competing superpowers necessitates a nuanced approach, guided by pragmatism, national interests, and a strategic autonomy that preserves India's independence.

#### **The competing pulls:**

**The United States-** Shared Democratic Values and Security Partnership: a natural alliance against China's assertiveness, providing access to sophisticated defence technology, economic partnerships, and a shared commitment to democratic principles.

**China-** Economic Interdependence and Trade Ties: China is India's largest trading partner, presenting immense opportunities for economic cooperation and infrastructure development.

#### **Balancing Strategies: Maneuvering the Tightrope:**

**Strategic Autonomy:** As C Raja Mohan advocates in "India's Grand Strategy," maintaining self-reliance in critical sectors like defence technology, energy, and pharmaceuticals remains crucial for long-term sustainability and avoiding dependence on either superpower.

**Multi-alignment and Global Partnerships:** Engaging with diverse players like the European Union, ASEAN, and other regional groupings, as suggested by Harsh V. Pant in "Modi's Foreign Policy: New Perspectives," allows India to leverage multipolarity, secure its interests, and avoid getting ensnared in the US-China binary.

**Economic Diversification:** Reducing dependence on China by fostering trade ties with the US, Africa, and other emerging markets like Latin America and Oceania.

**Defense Cooperation and Soft Power Prowess:** Balancing security cooperation with the US and maintaining an open dialogue with China on border issues, as suggested by Ashley Tellis, can help deter conflict and maintain regional stability. Concurrently, leveraging India's rich cultural heritage, democratic values, and development expertise to build soft power globally.

India's future lies in charting a course that transcends the US-China binary. By prioritizing strategic autonomy, diversifying partnerships, and utilizing its inherent strengths, India can emerge as a powerful, independent player on the global stage, shaping its destiny amidst the ongoing superpower rivalry.

### **Q) Critically evaluate Kautilya's concept of "danda" (coercion) in the context of maintaining internal security and external relations.**

Kautilya's Arthashastra, a seminal text on statecraft, posits "danda" (coercion) as a key pillar of state power. While essential for maintaining internal security and navigating external relations, a critical evaluation reveals both its strengths and limitations, raising questions about its compatibility with contemporary democratic principles.

#### **Strengths**

- Internal Security:** Danda acts as a deterrent against crime and rebellion, ensuring stability and order within the kingdom. Kautilya outlines a meticulous system of law enforcement, espionage, and surveillance, aimed at preventing internal threats and punishing transgressors.

- ❑ **External Relations:** Danda enables a state to deter aggression, defend its borders, and enforce treaties. Kautilya advocates for strategic alliances, vyuha formations for warfare, and skillful diplomacy, all backed by military prowess. This pragmatic approach to foreign policy allowed the Mauryan empire to expand its territory and command respect on the international stage.
- ❑ **Effective Governance:** Danda, when exercised judiciously, can be a tool for social justice and efficient administration. Kautilya prescribes graded punishments for different offenses, ensuring proportional justice. He also suggests utilizing danda to enforce fair taxation and protect vulnerable sections of society.

#### Limitations

- ❑ **Potential for Abuse:** Unchecked danda can morph into tyranny and oppression. The emphasis on coercion and surveillance can stifle dissent, freedom of expression, and individual liberties.
- ❑ **Moral Implications:** Kautilya's danda, while pragmatic, often blurs the lines between ethical and ruthless statecraft. This raises concerns about whether the ends justify the means, especially in a contemporary context.
- ❑ **Contextual Relevance:** **The rigid hierarchical structure and harsh punishments prescribed by Kautilya's danda might not be compatible with modern democratic societies. Contemporary approaches to security and diplomacy emphasize dialogue, cooperation, and international law, rendering Kautilya's purely coercive methods outdated in certain aspects.**

Kautilya's danda remains a fascinating concept that offers valuable insights into statecraft and diplomacy. However, a critical evaluation reveals its potential dangers and limitations. In a contemporary world that values democracy and human rights, it's crucial to acknowledge the need for alternative approaches to security and international relations that prioritize dialogue, cooperation, and the rule of law.

#### **Q) How does China's increasing influence impact the bilateral relationship between India and Sri Lanka, and what steps can be taken to strengthen ties between the two countries?**

China's expanding presence in Sri Lanka is raising concerns regarding the bilateral relationship between India and Sri Lanka.

- ❑ The presence of China poses a threat to maritime security as a permanent People's Liberation Army (PLA) presence in the eastern Indian Ocean limits the deployment options of the Indian Navy and neutralizes India's geographical advantage in these waters.
- ❑ For instance, Sri Lanka had approved a Chinese firm, SinosarEtechwinee Joint Venture, which is located just 50 km from the Tamil Nadu coast. This decision shows a preference for China over India.
- ❑ China is seen as a more reliable partner when it comes to enabling domestic economic development, ensuring timely project completion, cost-effectiveness, and infrastructure quality, among other factors.
- ❑ In contrast, India took five months to approve a loan moratorium requested by Colombo, while China promptly approved an additional loan from its development bank.
- ❑ The impact on trade is evident as Chinese imports reduced by 8% in 2022, whereas imports from India experienced a decline of approximately 19%.

To reinvigorate India-Sri Lanka ties, several steps can be taken:

- ❑ **Exploring new domains:** India has a stronger presence in sectors such as education, healthcare, and tourism, which can be leveraged to enhance collaboration with Sri Lanka.

- ❑ **Leveraging India's Soft Power:** Expanding the footprint of Indian information technology companies in Sri Lanka can create job opportunities and contribute to the development of the island nation's service economy.
- ❑ **Sharing experience:** India can share its own experience in managing minority rights and diverse populations as Sri Lanka embarks on the challenging task of drafting a constitution.
- ❑ **Strengthening cultural relations:** Both countries can establish a corridor focused on Buddhism knowledge and tourism, fostering cultural ties.
- ❑ **Cooperation in maritime security:** Given their shared interest in ensuring maritime security and safety, India and Sri Lanka should collaborate in this area as Indian Ocean maritime countries.

In conclusion, addressing the concerns arising from China's growing influence and implementing measures to enhance collaboration can help strengthen the Indo-Sri Lanka bilateral relationship.

**Q) The effective functioning of the federal system requires one to go beyond brute parliamentary majorities and grapple with multi-level government opposition matrix, which constitute the architecture of federal power sharing.' Discuss.**

According to K.C. Wheare, federalism is a method of dividing powers to allow both the central and regional governments to have coordination and independence simultaneously. Daniel Elazar argues that federalism, as an institutional arrangement, is built on the principle of self-rule and shared rule. Self-rule pertains to local matters of importance, while shared rule involves interactive partnership between different levels of government on common interests.

In the context of a diverse and democratic society like India, federalism is viewed as part of the democratic system of governance at the national, state, and local levels. It accommodates the plurality of cultures, including linguistic, regional, and other forms of diversity that transcend state boundaries. Alfred Stepan suggests that federalism is suitable for all multi-national and multi-ethnic democracies because it reconciles the principles of autonomy and integration.

Ideally, federalism as a governance principle rejects majoritarianism, where the rule of the national majority is considered the sole legitimate expression of governance. Granville Austin argues that in the Indian model of cooperative federalism, the center is not the only powerful entity. It is based on interdependence, with both the union and states relying on each other. While states require union funds, the union is also dependent on the states for policy implementation. Thus, this system is based on a give-and-take relationship between the center and the states.

However, Lehbruch highlights the interplay between democracy and federalism as crucial for the functioning of a federal system. The relationship between federal inter-governmental power sharing and the party system in parliamentary democracy plays a vital role. Parliamentary democracy involves party competition or coalition formation, while federalism requires coordination between different levels of government. The party system's dynamics shape the nature of federalism, ranging from cooperative to confrontational, based on whether the same party controls both the union and state levels or if different parties are in power.

Therefore, for a federal system to operate smoothly, a coordinating relationship within the government-opposition matrix is essential. Partnership and participation are key elements for generating federal harmony. Conversely, if coordination and power sharing become dependent on the political parties in state governments, it goes against the spirit of federalism.

# SCHOLARS DIGEST: KNOW YOUR SCHOLARS

## JEAN-FRANÇOIS LYOTARD AND HIS MAIN IDEAS: A CRITICAL PERSPECTIVE

### INTRODUCTION

Jean-François Lyotard, a renowned French philosopher, made significant contributions to postmodern philosophy. His ideas challenged traditional notions of truth, power, and narratives, influencing various fields such as philosophy, sociology, and cultural studies. This article delves into Lyotard's main ideas and their implications, highlighting his concept of incredulity towards metanarratives, critique of grand narratives, and the relationship between language and knowledge.

### INCRECULITY TOWARDS METANARRATIVES

Lyotard questioned the legitimacy of metanarratives, which are overarching narratives claiming to provide comprehensive understandings of the world. Metanarratives include concepts like progress, enlightenment, or Marxism. Lyotard argued that these narratives had lost credibility, as society became increasingly skeptical of their claims to truth and universality. He advocated

for embracing micro-narratives, recognizing the diversity and incommensurability of different perspectives and experiences.

### CRITIQUE OF GRAND NARRATIVES

A central aspect of Lyotard's work was his critique of grand narratives and their connection to power. He argued that grand narratives often functioned as tools of domination, allowing those in power to legitimize their control over society. By imposing a singular narrative, those in authority marginalize alternative viewpoints and suppress dissent. Lyotard believed that by dismantling grand narratives, we create space for a multiplicity of voices and foster a more democratic and inclusive society.

### LANGUAGE AND KNOWLEDGE

Lyotard explored the relationship between language and knowledge, emphasizing the limitations and complexities of linguistic representation. He rejected the idea that language

could provide an objective and transparent representation of reality. Instead, he argued that language is inherently unstable, fragmented, and subject to different interpretations. Knowledge, according to Lyotard, is contingent upon language games, which are socially constructed systems of meaning. These language games shape our understanding of reality, but they are not universally valid or comprehensive.

### THE POSTMODERN CONDITION

Lyotard's ideas were influential in defining the postmodern condition. He described the postmodern era as characterized by a skepticism towards grand narratives, a celebration of diversity, and a recognition of the fragmentation of knowledge. In the postmodern condition, truth becomes a matter of individual interpretation and subjective experience. This challenges traditional notions of authority and encourages a constant reassessment of knowledge and its foundations.

### IMPLICATIONS AND CRITICISMS

Lyotard's ideas have both positive and negative implications. On one hand, his emphasis on the plurality of narratives and the rejection of grand narratives allows for a more inclusive and

democratic society, where diverse perspectives are valued. It promotes critical thinking, as individuals are encouraged to question dominant narratives and engage in dialogue. On the other hand, critics argue that Lyotard's ideas can lead to a relativistic stance, where all narratives are considered equally valid, undermining the pursuit of objective truth.

Furthermore, some critics argue that Lyotard's work lacks concrete solutions or a coherent alternative to grand narratives. They suggest that while skepticism towards metanarratives is valuable, it is essential to find a balance between acknowledging the limitations of overarching narratives and maintaining a shared understanding of the world.

### CONCLUSION

Jean-François Lyotard's ideas have left a significant impact on postmodern philosophy and the understanding of knowledge, power, and narratives. His skepticism towards metanarratives and emphasis on the plurality of narratives challenged established notions of truth and authority. While his ideas have faced criticism, they continue to stimulate intellectual debates and encourage critical engagement with dominant discourses.

## THOMAS HOBBS

He was an English political philosopher who lived in the 17th century. He is best known for his work "Leviathan," which laid the groundwork for modern political theory. Hobbes believed that humans are naturally selfish and violent, and that a strong, centralized government was necessary to keep society from descending into chaos.

### STATE OF NATURE

Hobbes believed that the natural state of humans is one of war and chaos. In the absence of government, individuals are in a constant state of competition and conflict, where life is "solitary, poor, nasty, brutish, and short." This state of nature is characterised by a "war of all against all," where individuals are constantly at risk of being harmed or killed by others. According to Hobbes, this makes life in the state of nature "nasty, brutish, and short."

### SOCIAL CONTRACT

To escape the state of nature, Hobbes argued that individuals must enter into a social contract with each other. In this contract, individuals agree to give up some of their natural rights in exchange for protection from the government. The government, in turn, is responsible for maintaining law and order, and ensuring the safety and security of its citizens. Hobbes believed that the social contract was necessary to prevent society from descending into chaos and violence.

### ABSOLUTE SOVEREIGNTY

Hobbes believed that the best form of government was an absolute monarchy, where the ruler has

unlimited power and authority. According to Hobbes, the sovereign should have complete control over all aspects of society, including religion and the economy. He believed that this was necessary to maintain order and prevent dissent. In Hobbes' view, the ruler's power was absolute and could not be challenged by the people.

### RELEVANCE TO MODERN POLITICS

Hobbes' political philosophy has been influential in modern political theory, particularly in the areas of political sovereignty and social contract theory. His ideas about the need for a strong government to maintain order and prevent chaos have been echoed by many modern political thinkers. However, his view of absolute monarchy has been criticized as undemocratic and authoritarian.

### CONCLUSION

Thomas Hobbes was a pioneering political philosopher whose work laid the foundation for modern political theory. His belief in the need for a strong, centralized government to prevent society from descending into chaos and violence remains relevant today. However, his view of absolute monarchy has been met with criticism and has been replaced by more democratic forms of government. Nonetheless, his contributions to the field of political philosophy have been significant and continue to be studied and debated by scholars today.

# SAMUEL P. HUNTINGTON

## INTRODUCTION

Samuel P. Huntington was an American political scientist known for his role as a consultant to several U.S. government agencies and his significant contributions to national discussions concerning U.S. foreign policy during the late 20th and early 21st centuries. He was born on April 18, 1927, in New York, N.Y., and passed away on December 24, 2008, on Martha's Vineyard, Massachusetts.

## CLASH OF CIVILIZATION THESIS

"The Clash of Civilizations" is a thesis put forth by American political scientist Samuel P. Huntington, which posits that in the post-Cold War world, cultural and religious identities will be the primary sources of conflict. According to Huntington, wars in this new era will not be fought between countries, but rather between different cultures.

Huntington's line of thought began by examining various theories about the nature of global politics in the post-Cold War era. Some thinkers argued that human rights, liberal democracy, and the capitalist free market economy had become the sole remaining ideological options for nations. Francis Fukuyama, for instance, suggested that the world had reached the 'end of history' in a Hegelian sense.

However, Huntington contended that the age of ideology had concluded, and the world had returned to a more typical state of affairs characterized by cultural conflicts. In his thesis, he proposed that cultural lines would be the primary source of conflict in the future.

Huntington went on to predict and describe major clashes that would occur among different civilizations. He anticipated potential cooperation between Islamic and Sinic cultures in opposition to the West, identifying three key issues that separated the West from the rest. These issues included the West's ability to maintain military superiority by controlling the proliferation of emerging powers, the promotion of Western political values like human rights and democracy, and the restrictions on non-Western immigrants and refugees entering Western societies. Non-Western countries saw these actions as Western attempts to impose and preserve their cultural dominance.

In one of his chapters, titled "The Global Politics of Civilizations," Huntington foresaw a "small, fault line war" between Islam and the West, as well as the potential for an "intercivilizational war of core states" between the United States and China.

# ANDRE GUNDER FRANK

## INTRODUCTION

Andre Gunder Frank, born on February 24, 1929, and passing away on April 25, 2005, was a prominent figure in the fields of sociology and economic history. Andre Gunder Frank, a German national, was a prominent left-wing economist and political activist. His extensive body of work spanned various domains, including economics, social and political history, development studies, and international relations. His most enduring legacy lies in his exploration of concepts such as the 'development of underdevelopment' and 'dependency theory.' Furthermore, he offered critical insights into the 'world system' of the 1970s and 1980s, shedding light on how it perpetuated global inequality.

## DEPENDENCY THEORY

Frank's central argument revolved around the idea that in our interconnected and globalized world, some countries thrive while others suffer. According to dependency theory, the citizens

of less-developed countries should not be held responsible for the lack of progress in their societies. Instead, Frank posited that Western nations actively hindered the development of these countries. He contended that historically, the "core" nations like the USA and UK, forming the privileged "metropolis," exploited the "peripheral" nations by keeping them in a state of dependency and underdevelopment. Developed nations accumulated wealth by exploiting the poorest nations, utilizing them as sources of cheap raw materials and labor.

Frank asserted that this exploitative relationship had persisted throughout history, evident in practices like slavery and Western colonization of various regions. Moreover, he argued that this pattern continued into the twentieth century, facilitated by Western countries' domination of international trade, the rise of large multinational corporations, and the reliance of less-developed nations on Western aid.

# ENRICH YOUR ANSWERS

Q) Analyze the concept of ideology from various viewpoints and distinguish between the ideas of the "End of Ideology" and the "End of History."

Approach to Answer

Intro: Define ideology  
eg coherent set of ideas that provides the basis for organised political action which is intended to either preserve, modify or overthrow the existing political order.

Body

(A) Give different perspectives on ideology.

- Marxist perspective
  - linked ideology to delusion & mystification
  - Gramsci linked it to hegemony.
- Liberal Perspective
  - \* ideology as 'closed system of thoughts'
- Conservative Perspective
  - \* ideology is equated with dogmatism of beliefs that are divorced from complex real world.

(B) Distinguish between 'End of Ideology' and 'End of History'

<u>End of Ideology</u> Daniel Bell	<u>End of History</u> Francis Fukuyama
* Economics has triumphed over politics and political ideology has come to an end	* With triumph of liberalism, the history of ideas has ended.

Q) Compare Ambedkar and Gandhi's views on social justice.

Q1) Compare Ambedkar and Gandhi's views on Social Justice.

Intro: Start answer by defining social justice.  
Also give general introduction about Gandhi & Ambedkar

Body

A) Mention the differences between views of Gandhi & Ambedkar

① Ambedkar was critic of Manusmriti (Manuvad) while Gandhi believed in varna system.

② Ambedkar held Vedas and Manusmriti responsible for social injustice while Gandhi didn't believe in it.

③ To achieve social justice

→ Ambedkar emphasised on Affirmative Actions

→ Gandhi emphasised on social reforms  
(raising the conscience of people)

④ Ambedkar preconditioned social justice to Nationalism while Gandhi believed that freedom struggle will result into social justice.

B) Mention similarities

① Both believed in social justice and eradication of poverty

② Both have vision of egalitarian society.

Ambedkar → a society free of contradictions  
Gandhi → Ramrajya.

Conclusion

Can mention that both Gandhian and Ambedkar's ideas on social justice found place in Indian Constitution

Q) India needs some creative diplomacy to address the changing environment of the relations between China and Sri Lanka. Comment

Q → "India needs some creative diplomacy to address the changing environment of the relations between China and Sri Lanka".  
Comment.

Answer

Intro: Give India's relations with respect to Sri Lanka.

→ Relationship between India and Sri Lanka is intertwined in historical bond. (Rajasingham Jayadevan)

Body: Tell the emerging China-Sri Lanka relations

→ Hambantota port lease to Sri Lanka.  
→ Sri Lanka's debt to China tripled in last decade.

Give ideas of creative Diplomacy

→ Using Buddhism as a common link  
→ Resolving small disputes of fishing etc  
→ Economic interdependence.

Conclusion

→ Resolve the impending issues and build people to people relations.

# PRELIMS PRACTICE QUESTIONS

- Q1.** Under which schedule of the Constitution of India can the transfer of tribal land to private parties for mining be declared null and void?
- (a) Third Schedule                      (b) Fifth Schedule                      (c) Ninth Schedule                      (d) Twelfth Schedule
- Q2.** With reference to the constitution of India, prohibition or limitations or provisions contained in ordinary laws cannot act as prohibitions or limitations on the constitutional powers under Article 142. It could mean which one of the following?
- (a) The decisions taken by the Election Commission of India while discharging its duties can not be challenged in any court of law.
- (b) The Supreme Court of India is not constrained in the exercise of its powers by laws made by the parliament.
- (c) In the event of grave financial crises in the country, the President of India can declare Financial Emergency without the counsel from the cabinet.
- (d) State Legislatures can not make laws on certain matters without the concurrence of the Union legislature.
- Q3.** Which of the following statements is/are correct regarding the Maternity Benefit (Amendment) Act, 2017?
1. Pregnant women are entitled for three months predelivery and three months post-delivery paid leave
  2. Enterprises with creches must allow the mother minimum six creche visits daily
  3. Women with two children get reduced entitlements.
- Select the correct answer using the code given below
- (a) 1 and 2 only                      (b) 2 only                      (c) 3 only                      (d) 1,2 and 3
- Q4.** With reference to the Constitution of India, consider the following statements :
1. No High Court shall have the jurisdiction to declare any central law to be constitutionally invalid.
  2. An amendment to the Constitution of India cannot be called into question by the Supreme Court of India.
- Which of the statements given above is/ are correct?
- (a) 1 only                      (b) 2 only                      (c) Both 1 and 2                      (d) Neither 1 nor 2
- Q5.** Which concept in international relations refers to the use of nuclear weapons as a means of preventing an adversary from taking aggressive actions?
- (a) Non-proliferation                      (b) Deterrence                      (c) Containment                      (d) Disarmament
- Q6.** The term “nuclear taboo” refers to:
- (a) A legal framework for regulating nuclear weapons
- (b) A collective norm opposing the use of nuclear weapons
- (c) A doctrine encouraging nuclear proliferation
- (d) A strategy for nuclear disarmament
- Q7.** Which country is considered a “P5” member under the Nuclear Non-Proliferation Treaty (NPT)?
- (a) India                      (b) Iran                      (c) North Korea                      (d) China
- Q8.** The Treaty on the Non-Proliferation of Nuclear Weapons (NPT) aims to:
- (a) Encourage the spread of nuclear technology
- (b) Promote disarmament among non-nuclear states
- (c) Establish a global ban on nuclear energy
- (d) Limit the use of conventional weapons
- Q9.** What is the focus area of the recently enacted Rajasthan Minimum Guaranteed Income Bill 2023?
- (a) Right to minimum guaranteed income                      (b) Right to guaranteed employment
- (c) Right to guaranteed social security pension                      (d) All of the above

**Q10.** The World Bank played a significant role in mediating the Indus Water Treaty between India and Pakistan. Which of the following rivers are covered by the treaty?

- (a) Indus, Ganges, and Yamuna (b) Indus, Jhelum, and Chenab  
(c) Ganges, Yamuna, and Brahmaputra (d) Ganges, Jhelum, and Chenab

**Q11.** Recently, there has been a growing trend of using the judicial route to resolve disputes arising from the construction and design aspects of run-of-river hydroelectric projects. What is the main purpose of the recent arbitration initiated by Pakistan at the Permanent Court of Arbitration?

- (a) To address matters concerning the certain design elements of the Kishanganga and Ratle projects  
(b) To resolve disputes related to water sharing between India and China  
(c) To determine the navigation rights in the Indus River  
(d) To resolve disputes related to water pollution in the Indus River

**Q12.** Under which schedule of the Constitution of India can the transfer of tribal land to private parties for mining be declared null and void?

- (a) Third Schedule (b) Fifth Schedule (c) Ninth Schedule (d) Twelfth Schedule

**Q13.** With reference to the constitution of India, prohibition or limitations or provisions contained in ordinary laws cannot act as prohibitions or limitations on the constitutional powers under Article 142. It could mean which one of the following?

- (a) The decisions taken by the Election Commission of India while discharging its duties can not be challenged in any court of law.  
(b) The Supreme Court of India is not constrained in the exercise of its powers by laws made by the parliament.  
(c) In the event of grave financial crises in the country, the President of India can declare Financial Emergency without the counsel from the cabinet.  
(d) State Legislatures can not make laws on certain matters without the concurrence of the Union legislature.

**Q14.** Which of the following statements is/are correct regarding the Maternity Benefit (Amendment) Act, 2017?

1. Pregnant women are entitled for three months predelivery and three months post-delivery paid leave
2. Enterprises with creches must allow the mother minimum six creche visits daily
3. Women with two children get reduced entitlements.

Select the correct answer using the code given below

- (a) 1 and 2 only (b) 2 only (c) 3 only (d) 1,2 and 3

**Q15.** With reference to the Constitution of India, consider the following statements :

1. No High Court shall have the jurisdiction to declare any central law to be constitutionally invalid.
2. An amendment to the Constitution of India cannot be called into question by the Supreme Court of India.

Which of the statements given above is/ are correct?

- (a) 1 only (b) 2 only (c) Both 1 and 2 (d) Neither 1 nor 2

#### ANSWERS

1. (b)
2. (b)
3. (c)
4. (d)
5. (b) Deterrence
6. (b) A collective norm opposing the use of nuclear weapons
7. (d) China
8. (b) Promote disarmament among non-nuclear states

9. (d) All of the above
10. (b) Indus, Jhelum, and Chenab
11. (a) To address matters concerning the certain design elements of the Kishanganga and Ratle projects
12. (b)
13. (b)
14. (c)
15. (d)
